DANIEL FASHAUER
SENIOR PLATFORM ENGINEER | ENTERPRISE ENDPOINT, MOBILITY & IDENTITY
Tampa Bay Area, Florida | Open to Remote
linkedin.com/in/daniel-fashauer-a0148278 | danfashauer.github.io

PROFESSIONAL SUMMARY

Senior Platform Engineer with 12+ years of enterprise healthcare IT experience.
Specializes in endpoint, mobility, identity and shared-device platforms.
Experience in HCA's approximately 200,000-endpoint environment and BayCare's approximately 40,000-endpoint environment. These are organization-wide environment sizes, not individual device-administration claims.
Skilled in platform configuration, complex troubleshooting, application delivery, testing, change validation, documentation and cross-team coordination.

CORE EXPERTISE

Microsoft Intune | Workspace ONE UEM | Jamf | SCCM/MECM | MobileIron
Windows Autopilot | Windows | macOS | iOS | Android | Shared devices
Microsoft Entra ID | Active Directory | Device compliance | Device trust
Root-cause analysis | ServiceNow / ITSM | Application delivery | Lifecycle
Requirements gathering | Operational standards | Vendor coordination
Existing scripting, automation and API-enabled platform capabilities

PROFESSIONAL EXPERIENCE

HCA HEALTHCARE | Senior Platform Engineer | Feb 2025 - Present
Enterprise environment: approximately 200,000 endpoints.
- Support endpoint and mobility services across Windows, macOS, iOS and Android.
- Troubleshoot platform, compliance, application and identity dependencies.
- Coordinate root-cause analysis and resolution with technical teams and vendors.
- Validate platform changes, deployment workflows and operational readiness.
- Document technical standards, support guidance and lifecycle procedures.
- Apply existing automation and scripting capabilities to platform operations.
